

Dear Friends:

A LIFT FOR A VET purchases, installs and maintains vertical transportation systems in the homes of disabled US Military Veterans at no charge to the deserving recipient. Our mission is to provide the means to an independent life to as many Vets as possible. Our Veterans have sacrificed so much for our Country and it is our turn to thank them for their dedication and service.

A LIFT FOR A VET is pleased to announce our next project:
The installation of a wheelchair lift in the home of SPC. Nicholas Staback.

Nick Staback graduated from Valley View HS in PA in June 2009 and enlisted in the Army in March 2010 choosing Infantry as his MOS (Military Occupation Skill). He completed his basic training at Fort Benning Georgia and was then stationed to Fort Wainwright Alaska where he was selected to be on the Sniper team. His Unit was deployed to the Kandhar Province in Afghanistan in April 2011. Nick served as RTO for his Company Commander in the Dand District and in May 2011 he was awarded the combat infantry Badge for engaging the enemy.

His Company pushed west into Panjwai and was assigned the task of building a new COP (Combat Outpost). Six months into his assignment on October 11, 2011 SPC Nick Staback was on a dismounted patrol in Panjwai when he stepped on an IED resulting in an amputation of his legs, both above the knees, and severely injuring his right arm. He was flown to Walter Reed National Naval Medical Center where he underwent many surgeries to clean debris from his remaining limbs and repair his wounds. After two months of surgeries the long journey of rehabilitation began and continues today as an outpatient at Walter Reed.

Nick plans to do an internship with the Pentagon Force Protection Agency while he is still in the Maryland area and would like eventually to be in the private security sector. Nick also hopes to return to his passion of hunting and fishing.

A LIFT FOR A VET received a letter from Nick's dad, Ed Staback, who had learned about our organization through a friend's encounter with **A LIFT FOR A VET** volunteer who was at Homes for Our Troops Build Brigade for SSG Earl Granville. Ed Staback told us about his son and explained that since their home is not wheelchair accessible it is difficult for Nick to have the independence and convenience of normal living. Ed and his wife Maria are building a one bedroom apartment above their three car garage for Nick and asked if **A LIFT FOR A VET** would install a wheelchair lift that would take Nick from the garage to his apartment. We enthusiastically said yes. Nick deserves to lead an independent life and we can make it happen with your help.

Nick's wheelchair lift will be installed by volunteers from Philadelphia's Local 5 Elevator Constructors with the assistance of **A LIFT FOR A VET** partner, Allied Elevator in Pennsauken, NJ.

The purchase, installation and maintenance of the system that **A LIFT FOR A VET** will install and maintain will be free of charge to Nick. **A LIFT FOR A VET** relies solely on donations to fund our efforts.

Won't you please help make Nick's dream of an independent life come true and make a tax free donation to **A LIFT FOR A VET** or perhaps you could join **A LIFT FOR A VET's** annual golf outing by playing a round and/or participating in one of the sponsorship opportunities. It is our main fundraiser each year and the means by which we fund our projects. Your tax deductible contribution to **A LIFT FOR A VET** will help ensure that many more disabled U.S. Military Veterans can be served.

Mays Landing Golf & Country Club
1855 Cates Rd., Mays Landing, NJ 08330

Saturday May 4, 2013
